DYER BILL WOULD END WHITE CONTROL

MISSOURIAN SAYS ELECTION OF HOOVER WILL WITNESS ENACTMENT OF LAW.

The following special dispatch dealing with the anti-lynching bill, of which Representative Dyer of Missouri was the author, reproduced complete from the Arkansas Gazette of Little Rock, should be read carefully by every Southern voter:

(Special to the Gazette)
St. Louis, Mo., Sept. 22.—Representative L. C. Dyer, Republican, of the 12th Missouri congressional district, today talked about enforcement acts for the 14th and 15th amendments to the constitution of the United States. It will be recalled that Mr. Dyer in 1923 introduced his anti-lynching bill which passed the lower house of congress, by a two-to-one vote. It went to the senate and while the majority of the senate was in favor of it, the Southern senators invoked a filibuster and killed the bill.

"But Hoover will blow the 'solid South' to pieces in November," said Mr. Dyer today.

"It is just as logical and reasonable for congress to enact laws for the enforcement of these two amendments as to have the Volstead act for the enforcement of the 18th amendment," Dyer said. "The 14th and 15th amendments have provisions for enforcement laws just the same as has the 18th amendment."

My anti-lynching bill intended for the enforcement of the 14th amendment, passed the house by a vote of two-to-one. It went to the senate and had the support of a majority of the senators, but the Southern Democratic senators took advantage of the filibuster and prevented its coming to a vote in the senate. Had the despotic rules of the senate been changed as Vice-President Dawes demanded, and worked for, giving the senate fair and sane rules to work under, it would have been an easy matter to have had my anti-lynching bill become a law.

"The passage of this bill would have led to the enactment of a law for the enforcement of the 15th amendment also, and would have guaranteed by these constitutional amendments."

"As it is now, those amendments amount to only the scraps of paper they are printed upon and they remain scraps of paper at the hands of Southern senators whose constituents yell the loudest, about nullification at any one who dares question the wisdom of the 18th amendment and the Volstead act, for I am opposed to prohibition, and would vote to repeal the 18th amendment."

"Until this is done, however, I am in favor of enforcing the prohibition amendment as best we can by providing funds and the necessary machinery. I have so voted heretofore and will continue to do so while I am a member of congress as long as the 18th amendment stands. I do not do otherwise and be consistent in my contention and efforts to bring about similar machinery for the enforcement of the 14th and 15th amendments as that for the enforcement of the 18th amendment."

"Perhaps the world has never witnessed such inconsistency as that exhibited by the people of the Southern states in demanding and bringing about the nullification of the 14th and 15th amendments by their state legislatures, and at the same time demanding the enforcement of the 18th amendment. It is simply amazing. No amendment to the constitution means anything unless there is an enforcement set and sufficient funds are provided for its enforcement. There are powerful and influential people who are ready to demand of congress an early session laws with ample appropriations that will make these two amendments just as effective as the 18th amendment."

"We faith is the day that I believe we will see the fact that not far off when the federal government will, by virtue of congressional acts, place enforcement officers in the Southern States charged with enforcing these two amendments as give the negroes their rights as citizens, as guaranteed by the constitution. President Coolidge in one of his messages recommended that the federal government take charge of election in the states. 'It will be seen that my views on

prohibition are not in accord with those of Herbert Hoover. But Mr. Hoover's stand on prohibition has captured the imagination of the ardent Democratic drays of the south to such an extent that they have forgotten their democracy and have declared for Hoover and Curtis. And they cannot side-step. Hoover has their votes bagged. Who was it who mistakenly said that Herbert Hoover is not a good politician?"

"On November sixth, that great engineer-politician, Hoover, with the votes of the prohibitionists and those away because of the religious question in the south, will drive such a thick wedge through the heart of the 'Solid South' and their 'white supremacy' slogan that it will blow up After the solid south has been blown to pieces by Engineer Hoover, our next president, that will be the finish of the nullificationists of the South who have for 60 years violated and prevented the enforcement of the fourteenth and fifteenth amendments. Then congress will enact enforcement laws that will give millions of negroes their constitutional rights as citizens, and place them on an equality with all other races."

PRESBYTERIAN CHURCH

The rally services at the Presbyterian church last Sunday were skillfully planned and admirably carried out. The participants were young people, some of them small children, all to whom parts had been assigned were present and entered heartily into the spirit of the occasion. Attendance and collection were both large.

The services for next Sunday are as follows: Sabbath school as usual. E. E. McDougald, superintendent. The pastor will be absent at Metter, hence no morning sermon. In the evening at 8:30 o'clock promptly the usual services will be held, opening with song and prayer service for 20 minutes. The evening text, "I am

of great interest and vital importance to the thirty or more Presbyterian churches in Savannah presbytery are the plans now nearing maturity for holding a simultaneous evangelistic campaign during the week of Nov. 11-15, 1928.

These meetings will be conducted under the direction of the home missions committee of Savannah presbytery with the synod's work committee of the synod of Georgia co-operating. Some of the strongest preachers in the synod of Georgia and indeed in the Southern Presbyterian church will fill the various pulpits given the negroes full rights as guaranteed by these constitutional amendments.

Meetings will be held in the following churches and mission fields: Adel, Ainswell, Blackshear, Brunswick, Bryan Neck, Darien, Dorchester, Douglas, Fitzgerald, Flemington, Folkston, Hack Branch, Hazlehurst, Hull Memorial (Savannah), Independent Presbyterian (Savannah), Joseph, Mannington, McGregor, McRae, Metter, Mt. Vernon, Sadie, Savannah First, St. Mary's, Statesboro, St. Stephens, Tifton, Valdosta, Vidalia, Walthourville, Waycross, Wilbur Coney Memorial Chapel, and possibly White Bluff. The personnel of the workers and preachers will be announced within a few days.

GEORGIA-MERCER FRESHMEN PLAY AT LOUISVILLE FRIDAY

The freshman teams of Mercer and Georgia Universities will clash on Academy field at Louisville, Ga., on Friday, October 12th. The freshman team will be the feature of a double-header and will be played at 2 p. m., and the freshman clash will follow immediately afterwards. There will be no reserve seat and admission charges will be 50 cents and \$1.00.

The Mercer and Louisville freshmen have played in Louisville for the past two years. Since each team has won one game, the game this season will be the rubber game. The count is attracting more than usual interest. The squads of both teams will number upwards of thirty men. The officials for the game are Coach White (U. of Ga.), "Big Six" Satter (Mercer), and Alden Bradley (Mercer).

FORMER BULLOCH VOTER LOYAL TO DEMOCRACY

The Anti-Smith Republicans (we call them that deliberately, because they are exactly that) are gloating over the possible defection of Florida Democracy. They have apparently brought it about to believe that there are no longer any real Democrats in Florida.

Particularly do we hear extravagant claims as to the situation in the city of Jacksonville. The Times has no sort of barometer by which to forecast the outcome of the election in Florida, and we are ready to admit that our limited circulation in the city of Jacksonville does not indicate that the Times is cutting a very wide swath in the political arena there. We are taking the opportunity, however, to proclaim that we have discovered at least one old-time Democrat in Jacksonville. He may, so far as we are aware, be the only one of that variety in the city, but he analyzes 100 per cent Democracy as far as he counts in the center. He is Frank O. M. Smith, who is personal in its nature, was received during the week. A paragraph from that letter reads as follows:

"I cast my first vote in the Lockhart district, your county. I voted the straight Democratic ticket, including Tilden for president. Have kept the faith, and will vote a straight ticket in the coming election. If you can scrape up another copy of last week's issue, mail it to me. He seems to have gone astray and needs something to bring him back. At one time he was a good citizen."

And we are, therefore, sure when the votes are counted in November there will be one straight Democratic vote in Jacksonville, if no more. We believe Bulloch county citizens generally, wherever you find them, are voting the same straight ticket.

CROSBY LAD DIES FROM BITE OF A RATTLESNAKE

A six-year-old grandson of C. D. Crosby, near Nevils, died last Thursday as a result of a rattlesnake bite. The lad went into the field where some of the family were at work and espied a rattler in a coil by a stump. Not realizing the danger, he poked his foot toward the snake, whereupon the reptile reared up and bit him. He was bitten in the leg below the knee. Before he could get away, the snake made another lunge and struck him in the back of the leg.

HOWARD THEATER WILL PRESENT AL JOLSON

Atlanta, Ga., Oct. 9.—An announcement of wide interest to entertainment seekers of Georgia was made here today by the management of the Howard Theater, which has booked the famous Al Jolson's latest Viennese picture, "The Singing Fool," for showing at Atlanta beginning Monday, Oct. 15th.

This will be the Southern premiere of this picture, and will also be the first time it is shown anywhere outside of New York City, where it is still playing. At the opening performance in New York an admission of \$1.00 was charged. Mr. Jolson appeared in person at this performance. It is now playing in New York at \$3.00 a seat. The Howard management made the announcement that regular popular prices will prevail at the Howard theater. In the picture, the famous entertainer speaks from the screen and shows many popular songs that have won their way into the hearts of all who have seen it. His magnetic personality that has won for him an outstanding reputation is said to be in the picture. It is also stated that his voice is heard as clearly and distinctly through the Vitaphone as if he were actually singing on the stage.

He is said to soar to new emotional heights in his absorbing drama of a father's devoted love for his boy. Those who see it will smile through a veil of tears as this lovable story is unfolded before their eyes.

Suffering With SICK HEADACHES

Mr. Charles F. Todd, of Esteburg near Waynesburg, Ky., says: "I was suffering with nervous headaches. About once a week I would have these headaches, and have to quit work, and go to bed for about twenty-four hours. I would have pains in my neck, and right behind my right ear. "A merchant at Esteburg told me to try taking Black-Draught, which I did. "It relieved me. From that time on, I would take Black-Draught as soon as I felt like I was going to have one of those headaches—and they wouldn't come on. "Every few weeks, I take three or four doses of Black-Draught, and I feel so well, and do my work, and don't lose any more time with headache."

TAX COLLECTOR'S ROUND

I will make my round for the collection of state and county taxes, on October 23, 1928, as follows:

Teachers and patrons should let reason predominate in every requirement. Before you make an iron clad rule or a drastic requirement, better be sure you are allowing your self plenty of the rope for you might find need for a loop hole. System and order are prime essentials. To get this it requires tact and diplomacy.

The sooner you pay your taxes, the earlier you will get rid of a dread. Easier to pay while you still have some of your cotton money than after it is all gone. Tax executions add cost and then additional cost of levies. Let us pay our taxes before December, by all means. All of our school money comes from taxation. No taxes, no schools, and no schools means disaster.

Before planting any trees this fall and winter on your school premises, be sure that you know exactly where to place them. We want trees and shrubbery on well selected sites on all the school yards. Begin your plans now and before too late have your school yards supplied as needed.

After this school year the minimum requirements of our teachers will be at least a normal diploma. Teachers in service who are working off this requirement will be given recognition. New teachers should have at least a normal diploma before seeking employment. Old teachers who have made good will be given first consideration, naturally. There will be many more teachers than positions in Bulloch. Some teachers will have to seek employment in other counties. Get your normal diploma and then offer for teaching service.

"7TH HEAVEN"

With Janet Gaynor and Charles Farrell; based on John Golden's stage success by Austin Strong; directed by Frank Borzage. We are bringing "7th Heaven" back for its second showing, owing to the popularity of the play. Many of the Amusu patrons have promised that they will come to see the picture again and have told others about it also; which means a big crowd at the second engagement. "7th Heaven" is a drama of spiritual awakening through love and courage. It's a drama of two simple hearts who, through faith and courage, reached the 7th Heaven of happiness. "7th Heaven" is the eighth wonder of the movie world. Inspiring from start to finish.

A COMEDY DRAMA

SATURDAY and MONDAY, October 13th and 15th

"THE JAZZ SINGER"

With Al Jolson and May McAvoy; based on the play by Samson Raphaelson; directed by Alan Crossland. This thrilling and emotional story is that of the son of a cantor who runs away from home and becomes after years of struggle a Broadway sensation—returning when almost too late to sing in place of his father on the eve of the day of Atonement. "The Jazz Singer" gives the tenderest and most beautiful picture of the love between mother and son. Still a lad, the Jazz Singer has stolen from home to sing in a Bohemian cafe. A busbybody tells his father. Furious at the thought of his son's disobedience... he drags him home... administers punishment which causes the boy to leave home. See Al Jolson in "The Jazz Singer."

Come to see Colleen Moore in her latest sensation from the Broadway stage play. "PATHE NEWS, No. 82." See all. Knows all. The newspaper of the screen.

Paint Top and Bottom

In order to last, shingles should be protected with paint or varnish on the bottom as well as the top and sides. Decay is no respecter of surfaces, and will attack and wear away one side as well as another. Therefore, it is best to paint or varnish the entire shingle as soon as it is put up.

SOURCE OF HUMAN POISONING PROVED

(By Manuel Leo Adler, D. D. S., New York City.)

To check up on a theory, a group of scientists recently inoculated a selection of healthy animals with germs taken from the abscessed teeth of some persons who were suffering from various body ailments. The investigators found that the animals were soon suffering from the very same ailments as the patients from whom the germs were taken, thus proving that infected teeth cause diseases of the body.

People suffering with diseases of the heart and kidney, of the alimentary canal, of the nervous system, of metabolism, of bone and muscles, cancer, tuberculosis, etc., should have their teeth examined and x-rayed, and should correct any defects that may be found.

While it cannot be said that infected teeth are the cause of all our troubles, the teeth should be looked after because in a good number of cases they have definitely been proven to be the source of infection.

The germs from the abscessed teeth are found to reach their destination in the vital organs via the blood stream. Since it has been shown that the blood travels in a continued cycle, we can readily understand how blood traveling to the teeth may carry off these toxins and spread them along the entire blood system. It is where these toxins lodge that trouble arises. The head, arms, hands, internal organs, legs and feet are all exposed to the infection.

The blood system may be likened to the yards of a railroad system, with its number of tracks and its connecting switches enable a train to move from one track to another, except that it presents a greater and more intricate network of blood vessels or "tracks." The blood travels along two main divisions, the arteries and the veins. These in turn divide and subdivide into tiny branches passing to all parts of the body.

The headquarters of this system is the heart, which is constantly working. To it, coming from the veins, is brought the blood that has already passed through the body. The pumps of the heart drive it through the lungs, where it is refreshed and recharged, and then another pair of pumps drive it along the arteries throughout the body. And so we have an automatic cycle working constantly.

An abscessed tooth may cause many body ailments, by giving off toxins or poisons that may travel along this blood system. Have your teeth examined two or three times a year to prevent trouble developing. Do not wait until it develops and your physician advises you to consult a dentist.

PONTIAC REGISTRATIONS LEAD ALL OTHER SIXES

Pontiac, Mich., Oct. 6.—Continuing the rebabitation process it has maintained since its introduction, the Pontiac Six for the three-month period ended July 31st, led all six cylinder cars in new car registrations in the United States, according to an announcement made today by W. R. Tracy, vice-president in charge of sales of the Oakland Motor Car Company.

This relative standing based on the most recent compilations received by Mr. Tracy from R. L. Polk and Co., credits the Pontiac Six with a total of 61,880 registrations during the three month period—more than 1,000 cars in excess of its closest competitor, and nearly 2,000 units ahead for the single month of July.

This record is regarded as particularly outstanding because the Pontiac Six was first offered to the public less than thirty months before it attained its first position in registrations of all makes of six cylinder cars.

Almost as remarkable as its gain over competitive cars is the increase in Pontiac sales this year over previous years. In May, registrations were 21,995 units as against 13,238 in May of 1927 and 5,908 in 1926. A similar increase was registered during June and July.

Registrations for the three month period ended in July, in comparison with previous quarters, also reveal graphic fashion how the Pontiac Six forged to leadership in its field. While registrations for May, June and July of this year totaled 61,000 units in the same quarter last year the total was 38,000 cars and in 1926 17,000 Pontiac Sixes.

The pace established by this lowest priced General Motors Six is expected to be continued, Mr. Tracy stated, in view of the numerous refinements that recently have been added to the car, making it more than ever a popular favorite.

MANY VISITORS SEE TALLULAH FALL PLANT

Atlanta, Ga., Oct. 8.—Proof of the increasing attractiveness of the North Georgia mountain section to tourists and summer vacationists is seen in the fact that the number of visitors registered at the Tallulah Falls Hydro-electric plant of the Georgia Power Company during the past summer exceeded the total of any previous year. A total of 3,107 persons were shown through the plant by the company's guides during the season just ended, according to officials of the power company.

Four foreign countries and nearly every state were represented among the visitors. The foreign visitors registered from London, Copenhagen, Cuba and Argentina. A majority of the visitors were from Georgia and the southeastern states, but other states represented included Texas, Indiana, Ohio, Louisiana, New York, Pennsylvania, Kentucky, California, Massachusetts, Virginia, Illinois, Kansas, Missouri, Mississippi and South Dakota.

HINES EXPLAINS WHY HE FAVORS AL SMITH

BELIEVES SMITH WOULD GIVE
BETTER ENFORCEMENT OF
DRY LAW THAN HOOVER.

Judge James K. Hines, once a judge on the bench of the Middle judicial circuit, has always been very popular throughout South Georgia. During the days of division among the people of Georgia, he was a populist and stood at the forefront in their ranks. As a candidate for governor along in the mid-nineties he came near defeating W. Y. Atkinson. When the populist party disbanded Judge Hines returned to the Democratic party. His return has been absolute—he has never since then wavered in his loyalty. He has held and deserved high honors at the hands of the people of the State, and his only two years ago as chief justice of the Supreme Court was only two years ago as chief justice of the Supreme Court was only two years ago as chief justice of the Supreme Court.

Judge Hines' friends always listen gladly to what he has to say. They listen to him because he studies the matters about which the liquor question is better than the declaration of the Democratic platform on this subject. The difference between Hoover and Smith is that the latter is of the opinion that this amendment to the Constitution should be enforced, and especially to those who looked to him for leadership in the olden days. We are publishing this letter in full herewith:

Atlanta, Ga., Sept. 6th, 1928.
Dr. W. R. Frieron,
Reidsville, Ga.
Dear Doctor:

Your letter of the 31st ult. came duly to hand. I hope I may be able to serve you in the future in some way.

I note what you say about the political situation. I do not see how the Southern people can vote against Smith. I differ within my views on the prohibition question; but I recognize that there is much force in the position which he takes. If we cannot enforce prohibition better than it has been enforced under the Volstead Act, we had better make some change. If by change we can get better results, I was always opposed to putting the eighteenth amendment into the Constitution of the United States, for the reason that it had no place in that document, and was opposed to granting to the general government any more power than it already had. The concentration of power at Washington is one of the dangers of our system of government. I believe that the liquor question ought to be regulated by the states, and that a state is dry or goes dry, Congress ought to prohibit under its power to regulate interstate commerce, the introduction of whiskey from a wet state into a dry state. But there are greater issues involved in this campaign, my opinion is, and the prohibition question. I believe that the opposition to Governor Al Smith is based largely, if not wholly, on the fact that he is a Catholic; and such opposition violates, in my opinion, the spirit both of the Federal constitution and that of our state. I believe that the most sacred right that an individual possesses is his right to worship God, or not to worship Him, as he sees fit. The Constitution of the United States prohibits Congress from establishing any religious test for office. It must be conceded that under the Constitution of the United States, Congress can pass no law which prohibits a Catholic from being elected President. If in view of this fact voters undertake to establish a test for office and demand that they will not support a Catholic, then they in effect and in spirit violate this provision of the Constitution of the United States.

The Constitution of Georgia declares that every person has the right to worship God, or not to worship Him, as he sees fit. The Constitution of the United States prohibits Congress from establishing any religious test for office. It must be conceded that under the Constitution of the United States, Congress can pass no law which prohibits a Catholic from being elected President. If in view of this fact voters undertake to establish a test for office and demand that they will not support a Catholic, then they in effect and in spirit violate this provision of the Constitution of the United States.

For these reasons I shall give my support to Smith and hope that the State of Georgia will go for him.

STATSBORO, GA., THURSDAY, OCT. 18, 1928

COME TO
BULLOCH COUNTY,
THE HEART OF GEORGIA,
"WHERE NATURE SMILES"

VOL. 37—NO. 33

HINES EXPLAINS WHY HE FAVORS AL SMITH

BELIEVES SMITH WOULD GIVE
BETTER ENFORCEMENT OF
DRY LAW THAN HOOVER.

Judge James K. Hines, once a judge on the bench of the Middle judicial circuit, has always been very popular throughout South Georgia. During the days of division among the people of Georgia, he was a populist and stood at the forefront in their ranks. As a candidate for governor along in the mid-nineties he came near defeating W. Y. Atkinson. When the populist party disbanded Judge Hines returned to the Democratic party. His return has been absolute—he has never since then wavered in his loyalty. He has held and deserved high honors at the hands of the people of the State, and his only two years ago as chief justice of the Supreme Court was only two years ago as chief justice of the Supreme Court.

Judge Hines' friends always listen gladly to what he has to say. They listen to him because he studies the matters about which the liquor question is better than the declaration of the Democratic platform on this subject. The difference between Hoover and Smith is that the latter is of the opinion that this amendment to the Constitution should be enforced, and especially to those who looked to him for leadership in the olden days. We are publishing this letter in full herewith:

REPUBLICAN ORATOR MEETS PROSPERITY

OFFICERS SELL HOUSEHOLD
GOODS AT COURT HOUSE AT
CLOSE OF SPEAKING FEEST.

Republican Secretary of Treasury Mellon grows enthusiastic when he contemplates the record of the past seven and a half years of Republican control. He declares with emphasis that prosperity has been abroad in the land and the people are happy. His party winglammers go forth to repeat his appeal for a continuance of that prosperity and are met by conditions which belie his declarations of its existence.

Last Monday Republican Elector Frank Durden accompanied Democratic (?) Parson Anthony to Statesboro to make an appeal for a continuance of Republican control. Republican Elector Durden enthusiastically greeted when Parson Anthony made his appeal in behalf of the G. O. P. His hands were blistered from the continuous battery of approval which followed the attack upon Democracy and her candidates.

But there was one subject Parson Anthony steered clear of in his discourse—he didn't talk about the prosperity of the South Georgia section. He knew too well that there is no such commodity. He has lived in South Georgia among the country people and he knows that poverty has overtaken the South all since the Republicans took the reins of government.

Parson Anthony was wise to stay off the prosperity proposition. As the anti-Democratic assemblage was breaking up at the court house, there was an assemblage of another nature. Officers of the law plates and parson—prosperity had two men out of business. Police Chief Prosser was selling the belongings of a well known white business man who had been unable to pay his taxes, and who had been foreclosed on by the bank.

George Scripps was selling the intimate belongings of a colored man who was no longer able to stand up under the Mellon prosperity.

The political parson was walking away from the scene of his political pronouncement when he observed the crowd surging like vultures over the litter of household goods. "What does all that crowd there mean?" he asked this reporter.

"That, sir," the reporter replied, "is an actual exhibition of the Republican prosperity you have been speaking in defense of—trying to hold in control of this country. The officers are selling the beds and pans out of the homes of men who have been hit by the scourge of Republicanism."

The parson winced. "Pardner," he said, "I didn't say it. There is no prosperity and I know it. I haven't claimed anything for the Republican party. I am just fighting against the thing that the Democratic party is trying to put over on me."

Secretary Mellon may be revealing in the prosperity about which he prates. He may make some people in the United States believe what he says. There may be some people in Bulloch county who are willing to try Republicanism for another spell, but there are at least two men in Statesboro who can't be fooled about it—they are the two men who lost their household goods because they couldn't do it Monday morning at the hands of the law before they could not pay their debts.

PROMINENT TEXAS WOMAN ADDRESS LOCAL DEMOCRATS

Announcement is made that Mrs. Lloyd Fletcher, national Democratic committeewoman from Texas, will address the people of Bulloch county in the court house at 4 o'clock Friday (tomorrow) afternoon.

Mrs. Fletcher is traveling through this section under the auspices of the Democratic party and her coming to Statesboro is directed by the regular organization of the State.

Mrs. Fletcher has long been prominent in political affairs in her State. Four years ago she took a prominent part in the campaign, and was connected with the speaking bureau of the national organization. She is a woman of fine character and her address will be especially directed to the women of the party, though the men are invited and expected to hear her. She is a Southern woman and her sympathies and instincts are with the patriotic South.

From Statesboro, Mrs. Fletcher will go to Millen for an address later in the evening.

DR. ANTHONY SPEAKS AGAINST DEMOCRACY

Dr. Bascom Anthony, well known minister of the South Georgia Methodist conference, now presiding elder of the Thomasville district, spoke in opposition to the Democratic nominee in the court house here Monday morning. The court house was filled, the number being estimated at 300 or more.

Dr. Anthony was accompanied to Statesboro by Frank Durden, Republican elector for the First congressional district. From Statesboro he proceeded to Graymont, where he was scheduled to continue his speaking tour against Democracy.

Dr. Anthony arrived in Statesboro a few minutes late of the speaking hour, having been delayed by a quite heavy shower which fell just previous to his arrival. This shower no doubt so militated against a larger attendance at his meeting, though the attendance was entirely creditable. He was introduced by Hinton Booth, who presided at the meeting.

Those who heard Dr. Anthony speak agree that his line was less drastic than they had expected from him. A man with a keen intellect and biting invective, he was generally counted upon to be rather cutting in his assault upon the Democratic ticket.

Instead, however, it is generally commented that he was mild and careful in his manner, seeking to give the Democratic candidate a full measure of credit for honesty and integrity of character. His objection to Gov. Smith, in the main, was that his birth and environment had been such as to unfit him for a sympathetic understanding and appreciation of the things that are best for the entire country. Dr. Anthony's address was a rejection of the Democratic nominee without attempt to unduly praise the Republican nominee.

LEADING DEMOCRATS SPEAK HERE TUESDAY

HON. C. R. CRISP AND HON. E. E. COX TO ADDRESS VOTERS OF BULLOCH COUNTY.

Bulloch county Democrats will be given an opportunity to hear two distinguished leaders of the party when Congressman Charles R. Crisp and Congressman E. E. Cox appear together here next Tuesday morning. These two distinguished Democrats, exponents of loyal Democracy, are coming under the auspices of the Democratic organization of the State. Arrangements for their coming have been made through Hon. Marvin O. Neal, of Savannah, district chairman of the organization.

Congressman Crisp is from America and is a worthy son of that stalwart statesman, Charles F. Crisp. Besides those characters, there are choruses of court ladies, Eskimo mummies, sheas, leading children, "it" girls, pirates, Hula-Hulas, dream girls, and hot tomale Dollies which lend pep, variety and charm to the production.

"Solomon's Wife" is in Statesboro under the auspices of the Woman's Club. Help the club give her a royal welcome. You will like her and she will give
